WELCOME TO THE KINGDOM!

Ever wonder which Stephen King movies were actually written or directed by him or just based off his literature?

How about one that involved a lawsuit to get his name disassociated with the project because it relates to a work of his in title only?

ABOUT THE KINGDOM

Awhile ago I thought it would be a fun idea to work my way through the vast list of Stephen King movies (I never made it) and starting to do that just made me more interested in his actual role (or non-role) in the list of movies that are considered tied to him.

The Stephen Kingdom is my effort to compile a list of movies considered to be one of King's, and then let you know how he is associated with it (sprinkled with a few fun filming facts along the way).

Enjoy!
