PROJECTS

Internship Project - Partner Scraper | github.com/meganschultepdx/Internship-Project
Internal company tool built during internship that uses a React front-end to call a C# back-end API to collect and model data from a SQLite database. C# back-end make calls to partner APIs to retrieve and store data in database.

The Stephen Kingdom | github.com/meganschultepdx/the-stephen-kingdom
Mobile app built in React Native and Expo and uses Firebase as a BaaS.

Highlander Tap House | github.com/meganschultepdx/highlander-tap-house
Website built with "pure" React; passing props & state to nested components and using conditional rendering of components.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern | CD Baby, Inc. | Portlad, OR
Aug 2019 - Sept 2019

- Designed and built an internal company tool that used a React/Hooks/Typescript front-end and a C#/EF Core/Sqlite Backend.
- Created a C# independendent API backend that made requests to partner API endpoints and saved data to a Sqlite database.
- Creatively wireframed and programmed a React front-end that made calls to the back-end API to retrieve and model database data using thoughtful UI.
- Collaborated with developers to strategically develop project, problem solve & learn best practices.
- Actively participated in agile/scrum planning with project managers, designers and data teams.

Owner/Designer/Printer | STENCILITIS Screen Printing | Portland, OR
2013 - Present

- Successfully built and ran a small screen printing business that has been profitable all years of operation.
- Actively acquired & retained clients, resulting in a regular client base of 40+ customers.
- Collaborated with clients to design logos, apparel and other image layouts.
- Devised marketing plan for business, website design with website builder, HTML, CSS.
- Thoughtfully worked with clients to figure out the best approach to their project needs.
- Executed continuous research on new print techniques & products to problem solve ever changing customer needs & to provide up to date printing technologies.

Owner/Designer | Erdoben Metals & Apparel | Portland, OR
2016 - Present

- Designed a chainmaille jewelry & apparel brand with from the ground up.
- Created a cohesive collection of over 20 apparel designs & 30 original jewelry pieces.
- Successfully marketed and sold pieces via Etsy, Instagram, craft/street fairs, wholesale store accounts.
- Spearheaded and organized an art/craft fair two years in a row that brought together over 20 vendors to promote brand and other local artists' work.
